

POINT MUGU SEA RANGE EIS/OEIS

Record of Decision

Notice of Availability

The U.S. Navy, after carefully weighing the strategic, operational, and environmental consequences of the Proposed Action, is announcing its decision to continue military readiness activities and increase research, development, acquisition, testing, evaluation, and training activities as described in the Point Mugu Sea Range Final Environmental Impact Statement/Overseas Environmental Impact Statement (EIS/OEIS).

The Navy made this decision after considering military testing and training objectives; best available science; potential impacts activities may have on human, natural, and cultural environments; and input and expertise from elected officials, government agencies, tribes, nongovernmental organizations, and the public on the proposal and environmental analysis.

For More Information

The Navy is committed to providing the public an accessible version of the Record of Decision. The Record of Decision, Final EIS/OEIS, and supporting documents are available online at www.pmsr-eis.com. Printed copies of the Final EIS/OEIS are also available for viewing at the Camarillo, Carpinteria, E.P. Foster (Ventura), San Luis Obispo, Santa Barbara, South Oxnard, and Oxnard Downtown Main public libraries.

Please share this information to help inform your community.

Record of Decision

The Record of Decision documents the Navy's decision to continue military readiness activities and increase testing and training activities in the Point Mugu Sea Range as described in Alternative 1, the Navy's Preferred Alternative, in the Point Mugu Sea Range Final EIS/OEIS.

Implementation of Alternative 1 will allow the Navy to fully meet current and future testing and training requirements.

The Navy is committed to being a good steward of the environment and will continue to implement mitigation measures and standard operating procedures to avoid or reduce potential environmental impacts from testing and training.
